Dne 3. in 4. januarja 2008 je bila na Institutu Jožef Stefan stereoskopska predstava na kateri je bilo predstavljeno 42 projekcij stereoskopskih slik in en stereoskopski film. Večina projekcij je bila od članov Nizozemskih društev. Zanimanje za stereo projekcije je bilo precejšnje, saj je bila Velika predavalnica Instituta napolnjena tako v soboto, kot tudi v nedeljo. Bili smo tudi deležni pozornosti medijev, ki so tako na Info TV, kot tudi na POP TV objavili prispevke o projekciji in stereoskopiji.

*The regular yearly stereoscopic projection of our Society took place on 3<sup>rd</sup> and 4<sup>th</sup> of January at J. Stefan Institute. There were 42 stereoscopic picture projections and one stereoscopic video shown in two days (mostly from the Netherlands). The Main lecture room was filled up both days. Two TV stations which broadcast over the entire Slovenia were present as well (POP TV and InfoTV).*
