

SEE I3E workshop – Ljubljana

Promoting Innovation in the Industrial Informatics and Embedded systems through Networking

Here we announce the first [SEE-I3E](#) workshop, which will be held in Ljubljana, Slovenia on 7th of October 2010. The event will be organized within the in the [3rd International Technology Transfer Conference](#) on

Thursday, 7th October 2010 from 9:00 to 14:00
Jožef Stefan Institute in Ljubljana

At the SEE-I3E Workshop, the current results of SEE I3E project will be presented as it is given in the [conference program](#).

1. Short presentation of scope and aims of I3E project: dr. Vladimir Jovan, Jožef Stefan Institute, prof. dr. Matjaž Colnarič, University of Maribor, Slovenia
2. Presentation of I3E Strategic Research Agenda: dr. Dejan Gradišar, Jožef Stefan Institute, Slovenia
3. Presentation of three selected projects "good practices" from the fields of embeded systems and industrial informatics: 4 presenters
 - a. System for automatic end-quality assessment of vacuum cleaner motors, Domel
 - b. The new generation of HVAC valves, Danfoss
 - c. PLC Batch: a solution for batch process control, Inea
4. Discussion & Conclusions

You are all kindly invited to participate in the Conference and our Workshop. You can register for the event with sending an email to tehnologije@ijs.si or dejan.gradisar@ijs.si. The attendance is free of charge.

Organization team of the I3E workshop
Dr. Vladimir Jovan, IJS
Prof. dr. Matjaž Colnarič, UM-FERI
